## **Membership Renewals Underway**

[Renew Now!](#)

**CACME Membership Runs Annually from July 1 through June 30**  
It's that time to pay your annual CACME dues. Click this [link](#) to renew your July 1st to June 30th membership.

## **Did You Know?**

### **Search ACCME's New Website to Win!**

The ACCME just launched their new website [www.accme.org](http://www.accme.org). It's much more user friendly and their wealth of information is much more accessible. To encourage exploration, there's a fun contest going on now. ACCME has "hidden" three ACCME stars throughout the site. To enter, find all three stars and email the URLs for each page upon which a star is located to Megan Jovic at [mpeters@accme.org](mailto:mpeters@accme.org) by July 2nd.

In other news, the ACCME and Board of Medical Examiners in Tennessee are collaborating to launch a voluntary, year-long pilot program that will enable CME providers to report physician participation in CME directly to the Board. The pilot will begin in July 2018.

## **Meet the CACME Leadership: Dulcenea (Dulce) Davis, Secretary**

Dulce, the CME Program Manager for SCL Health System has been in CME for about five years and has been an active member of CACME for the past three years as Secretary for the Executive committee.

As many do, she fell into CME or what she calls the 'accidental profession' with limited knowledge of the ins and outs of CME. Terrified but eager to learn she quickly reached out to CACME to help her navigate this new world. CACME has been an amazing resource for her CME programming and has been an integral part of her professional development and growth. CME has truly become a passion for her and she is eager to continue to improve patient care through the development of educational programs throughout the SCL health system.
